II. SFY15 Agency of Human Services Grants Inventory

Drawing from the Department of Finance and Management inventory of FY15 Grants, the Agency of Human Services incorporated columns for the “major Agency Program served by the grant” and to indicate the “existence or nonexistence in the grant of performance measures.” In order to complete this inventory, the Agency of Human Services worked with each Department to validate a working “Catalog of AHS Programs” that had been developed by the Health and Human Services Enterprise.

For the purposes of this inventory and the “Catalog of AHS Programs,” “program” was defined as “an identifiable segment of State government delineated by a set of activities with specific goal.” In the table below, the existence of performance measures in grants is abbreviated as “PM (Y/N?). Individual grants may have multiple fund sources. As such, each fund source within a grant is broken out in a separate line in the report (“FED” – federal funding source; “GC” – Medicaid Global Commitment; “GEN” – State of Vermont General Fund; “SP” – Special Funds; “OTH” – other).

III. Draft Template for Grant Agreements (Attachment A)

The Agency of Human Services is piloting a newly developed template to strengthen the way that we measure and monitor the effectiveness of grants toward comprehensive strategies to improve conditions of well-being for the Vermonters we and our community partners serve. In this section is a reproduction of the working draft template (*Attachment A: Specifications of Work to be Performed*) that clarifies common language around performance measurement and monitoring, and standardizes use of Results-Based Accountability in alignment with Vermont's Act 186.

The Agency of Human Services is working collaboratively with Vermont Care Partners to pilot the use of this template for the FY17 Designated Agency Mastergrant, and is initiating a process to pilot use of the template in select FY17 grants issued by each Department.

Population Level Accountability

Vermont statute Act 186 (2014) establishes outcomes and indicators that are intended to align programs and strategies across the state toward the same ends. The work of the grantee contributes to – but is not exclusively accountable for – any change in the indicator(s), therefore the grantee will not be held accountable through this grant for any change in stated indicators over time.
